NUMBER 41

SIX ARE VICTIMS OF KANSAS AXMAN

Boy Killed; 4 Dying In Concordia Township, Murderer Unknown.

Concordia, Kan., April 5.—An unknown assailant, wielding an ax as a weapon, attacked the family of L. J. Tremblay in their farm house, twenty miles east of here, early today.

Tremblay's eldest son, Theodore, 18, was hacked to death, and Mr. Tremblay and his three younger sons were so badly injured they were not expected to live.

After striking down his victims with the ax the murderer set fire to the house and barn. The barn was destroyed, but neighbors extinguished the fire in the house after dragging out the dead and unconscious victims.

Only the youngest son, Cleo, 8, has a chance to live, physicians stated today.

Tremblay and his five sons have kept house on the farm since the death of Mrs. Tremblay several years ago.

When neighbors arrived, attracted by the flames, they found the father on the front steps, his head crushed by a blow from the ax. Theodore's body was found in the barn, where he had been sleeping to care for a sick horse. It was horribly mutilated. The other children were in the house, their bodies beaten and hacked by blows from the ax which was found smeared with blood in the yard.

Blood-hounds were taken to the farm this morning and an attempt was being made to pick up the trail of the assailant.

The boys who are not expected to recover are Albert, 14; Francis, 12, and Alphonso, 10.

He was a devoted member of the Baptist church having professed faith in Christ in early life and united with that church at West Providence of which he remained a member until the organization of the Church at Central Grove in 1896 when he transferred his membership to the latter place, remaining a member thereof until death.

Mr. Loney was united in marriage with Miss Sallie McIntyre on Febru-

PROGRESS OF MEDICAL SCIENCE REMARKABLE

Washington, April 6.—It is reported from London by Dr. A. Cowan Guthrie, of that city, that death from pneumonia should shortly become a thing of the past. The means to this much desired end is the long-sought anti-pneumococcus serum, which will do for the active principle of this dread disease what the anti-diphtheritic serum has done for the former scourge of childhood. Dr. Guthrie promises the details of his discovery to the medical profession in a short while.

Governor of the Philippines Leonard Wood is rushing improvements at the Cullion leper colony and has stated that many have died from this dread disease who might have been saved had better conditions prevailed. The new treatment with chaulmoogra oil has worked such wonders with the ancient pestilence that the fact is overlooked that even under the most favorable circumstances a leper may not necessarily recover from this treatment and that it is hardly to be expected that any will unless hospital surroundings are of the most favorable character.

Surgeon General Cummings of the Public Health Service, draws attention to the progress made in combating disease as shown in vital statistics. "The war against disease is slowly being won," he stated. "It has not a few triumphs to its credit. Some of these are well reflected in the annual death rate in the United States, which during the last 20 years has dropped per hundred thousand of the population, for typhoid fever, from 35.9 to 9.2; for measles, from 12.5 to 2.9; for scarlet fever, from 10.2 to 2.8; for diphtheria, from 43.3 to 14.7; for tuberculosis from 201.9 to 125.6; for pneumonia from 180.5 to 123.6 and for all causes from 17.55 to 12.88. Incidentally yellow fever has been eradicated and smallpox, plague and typhus are being held at bay."

N. L. HOCKER

Judge Fogle was born and reared in Liberty, Casey County, the son of McDowell Fogle, who was a prominent Attorney of that section. DEMANDS INQUIRY INTO DRY LEAGUE

Washington, April 4.—Demand for investigation by the Department of Justice of charges that the Anti-Saloon League of America had failed to report campaign expenditures as required under the corrupt practices act was made in the House today by Representative Tinkham, Republican, Massachusetts.

Making the charges himself, Mr. Tinkham declared it would be "absolutely futile" to expect an investigation by Congress, because of "the complete control of the House by the Anti-Saloon League and its abject obedience to the dictates of the league."

Mr. M. F. Chumley, of Simmons, was a caller at this office yesterday.

Mr. James A. Tate of Rockport, came yesterday to visit relatives in this city.

Mr. and Mrs. David Wilson, of Hartford, Route 2, are the proud parents of a baby girl, born yesterday.

Mrs. Oscar Bishop entertained the Ladies' Social Club at her home on North Clay Street yesterday afternoon.

G. E. Fuqua returned to his home at Earlinton Sunday morning after being in Hartford a few days, assisting the local agent at the L. & N. Station, during the absence of the local assistant, Mrs. Berta Pedigo, while she visited relatives in Hopkinsville.

J. BULL ASKS ALLIES TO PAY WAR DEBT

U. S. Call Precipitates Action; Ready to Meet Demands.

London, April 5.—The British government has sent a note to the allies declaring that owing to the fact that Great Britain has to pay the interest on her war debt to the United States, she reserves the right to call upon her allies in turn to pay the interest on their war debts to Great Britain.

In this connection, it is pointed out that Great Britain is now fully prepared to pay the interest due the United States.

The three years' agreement between Great Britain and the United States lapses April 15, from which time interest on debt due by Great Britain to the United States begins to accrue, so that Great Britain will pay six months' interest the coming fall. Similarly the agreement between Great Britain and her debtors terminates almost immediately.

Paris, April 5.—The understanding in French official circles has been that the whole question of the interallied debts will come up soon on the initiative of Great Britain, as the result of the American funding bill requiring the payment of interest on the debts of the allies to the United States. As all of these operations are linked together, it is held in French circles that a settlement between any two countries requires a general adjustment.

The British foreign office is understood to have informed the French ambassador in London that the British government will bring the question up, but the French foreign office declared today no formal note on the subject had yet been presented.

RICHARD H. BARNES

Richard Henry Barnes, aged 74 years and ten months, died at his home in the Goshen country, Monday evening at eight o'clock, of a prolonged illness of stomach trouble. Mr. Barnes was a member of one of Ohio County's oldest families, a sturdy, dependable citizen and a useful asset to his community. He was a member of the Goshen M. E. Church, South.

On December 3rd, 1867 Mr. Barnes was united in marriage with Miss Sallie G. Barnard, who survives him. There also survives, one son, James, together with four grandchildren and three sisters: Mrs. Elizabeth Taylor, Hartford; Mrs. Lydia Miller, Beaver Dam; Mrs. Nannie Taylor, Liberty and a brother, Mr. John H. Barnes of Beaver Dam.

Funeral services were conducted at Goshen Wednesday afternoon at 2:30 by the Rev. A. D. Litchfield, now of Princeton, but formerly pastor at Goshen, and the remains buried in the Cemetery there.

CLEAR RUN.

The farmers here are progressing nicely with their farm work. Tobacco beds are coming on in fine shape, and up to date, the prospect for a good crop was never more promising.

K. O'P. HOME SOON TO BE DEBT-FREE

The splendid \$400,000 Widows' and Orphans' home, owned by the Knights of Pythias of Kentucky, will be free of debt by June the first according to statements made in the Lodge meeting here Tuesday night of this week by L. W. Arnett of Nicholasville, who attended the meeting and delivered an address in the interest of the drive just being finished to round up the remainder of the fund to pay the last of the indebtedness.

The Home is situated adjacent to Lexington and embraces a large tract of fine blue grass land, together with buildings well equipped for

care of the unfortunate widows and orphans of deceased members of the Order in Kentucky. The local Lodge guaranteed the subscriptions of private members heretofore given and agreed to make the amount to be paid in addition to that heretofore donated \$305.00. This is a worthy cause and should have the hearty and liberal support of the membership.

3 BANK BANDITS TAKEN IN FLIGHT

South Bend, Ind., April 4.—A ten-mile automobile chase during which volleys of shots were exchanged resulted this afternoon in the capture of three bandits who robbed the Eau Claire State Bank at Eau Claire, Mich., of \$1,185 in cash a few hours earlier. The capture was effected by a posse of farmers and deputy sheriffs in a woods near Berrien Center, Mich. One of the bandits, Henry Griffin of Gary, Ind., was wounded.

The money however, was not recovered. It is believed that the bandits either burned it in their machine or threw it away while attempting to race away from their pursuers.

The men confessed to the robbery, according to the police.

WHEN IS A CHILD OF SCHOOL AGE?

Washington, April 6.—Educators of the Capital City are not at all in sympathy with the recent declaration of Luther Burbank, the plant wizard, who declared his conviction that no child except the city child should be permitted inside the school rooms until ten years of age. They point out that plants and animals, the former group of living things, those with which Mr. Burbank has had the greatest experience, have only one age, which is that of their physical substance, whereas children are so many years old in body, but have minds which vary largely in "mental age" from that of the body.

Dr. Agnes L. Rogers, of Goucher College (Baltimore), has recently drawn attention of Capital school authorities to the need of mental rather than physical grading of children. In so doing she related the results of mental tests which revealed that in a group of first grade children their mentality ranged from that of four to nine years of age. "Children can acquire best the things proper to their learning point at a particular age," Dr. Rogers said. She explained the division by the tests of children into three groups; unusually bright children, the large average group, comprising 60 per cent, and the under-average children, who are slow to learn. The first and third groups include 20 per cent each of children tested. The new classification prevents retardation, while arbitrarily holding children of physical age of ten years from school increases it.

WATTERSON'S BODY FINALLY AT REST

Simple Service Is Held In Louisville For Great Journalist

Louisville, April 4.—"Marse" Henry Watterson came home to Kentucky today to rest for all time. A great assemblage of Louisville citizens and men of national prominence who knew him in life came to honor his memory. Flags on public buildings flew at half mast while simple services at the First Christian church were being held for the dean of America's journalists who died in Jacksonville, Fla., about three months ago.

The casket placed on a catafalque directly in front of the pulpit was flanked on one side with scores of floral offerings from many parts of the country. The folds of an American flag, which stood to its right and rear, were stirred by the breeze from the open doors.

The services were in line with that simplicity which had marked the life of Mr. Watterson. A ritualistic reading, a hymn, a prayer, an anthem by the choir and a eulogy were the outward tributes.

"He leaves no successor," the Rev. E. L. Powell, pastor of the church said, "for only Ulysses can wield the bow of Ulysses."

The burial service was read by the Rev. Dr. Charles E. Craik, of Christ Church Cathedral at Cave Hill cemetery while the casket was lowered into a stone vault.
